

SKYRATM
Professional Tableware

the NEW WAY
TO BUFFET

Hello!

We are excited to welcome you to the Skyra Professional International Catalog - Volume VI. It is bursting with our passion for food presentation and a half century old heritage of experience in engineering and innovation. Our mission is to innovate products that transform foodservice to the next level.

We play with materials, shapes, finishes and technology to create products that define the latest trends in foodservice. Significant investments in prototyping and tooling enable us to develop over a hundred new products each year with exciting new innovations and functionalities.

We have built an ecosystem where the professional food preparation can be enhanced with our product portfolio and sustained over an extended period of time. We believe that we can happily exist if we continue doing what we are so passionate about – to hone our legacy of innovating better dining experiences for as many people.

*Warm regards,
Raghav Khosla
Founder, Skyra Professional Tableware*

SKYRA OVERSEAS

SKYRA
ORIGINAL
DESIGN

Skyra is in the business of something new and something different. Every year, the designers at the Skyra studio meet with the industry's top chefs, F&B Directors, Caterers and Outlet owners to discuss gaps in the Tableware market. In Skyra's Annual Design Conference, concepts are ideated to address specific trends and requirements in professional F&B Service. Designs are put across Skyra's Engineering team to build the concept into a feasible mass produced item. Our engineers create prototypes, re-tune and finally launch over a 100 products each year.

Concepts such as MiniBytes, Fat Free Risers, Industrial Chic Buffet and Skyserv are some examples of the collections that have been generated through Skyra's Annual Design Conference. They address industry trends such as Live Action Stations, Chafing Dish Alternatives, Single Bite Servings and Industrial Chic design. They are also built to industry requirements for modularity, stackability and durability.

SKYRA MINIBYTES COLLECTION

Skyra MiniBytes are fun items that bring joy to the food presentation. Inspired from iconic themes that we come across in our everyday lives and remember from our childhood, these wonderful amuse bouche servers are intelligent and playful. The MiniBytes collection is priced extremely well so as to be a valuable alternative to ceramic mini vessels.

SKYRA POD DISPLAY

The modern oval design of the Pod System makes this modular riser system extremely attractive.

It thrives in simplicity, yet overwhelms with functionality.

There are countless ways in which 3 piece system can be setup.

At the end of the event, it simply flat packs neatly into an amusingly small box

SKYRA SENSATION COLLECTION

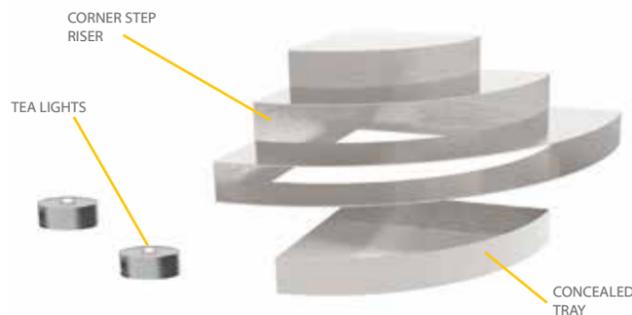

An intelligent design, the Sensation risers work equally well in presenting warm or room temperature food. By simply placing a tea light in the concealed tray, the entire system will remain warm. And placing 4 together results in a 360 degree service.

SKYRA MARRAKECH COLLECTION

The Marrakech series is a farm to table collection. Our burnt copper finish has been developed in-house to answer requirements for a rustic chic look. It is a copper-plated collection with a special hand application to distress the look and give it this proprietary burnt finish.

SKYRA MASALA COLLECTION

The Masala Collection is named so because it is a mixture of modern, clean shapes and traditional finish and goes well with spicy hot Indian dishes. The Spherical domes, Fluidic edges and Straight-line forms define the modern character of the items. In the Hammered Copper exterior, the fusion is trendy and exciting. The Masala Collection consists of Chafing Dishes, Live Cooking Station, Coffee Urns, Risers, Bowls and Platters.

SKYRA DOBBELT BOWL COLLECTION

Dobbelt in Danish means 'double'. It accurately describes our minimalistic Scandinavian Double Wall Bowl Collection. The Double Wall allows for insulation when filled with hot food and prevents sweating in cold stations. It also helps keep food warmer for extended periods. The thick-walled, sleek designs are superbly finished and look beautiful in any setting.

SKYRA DAVOS COLLECTION

Wood is a huge trend in buffet, but comes with challenges. It is not sanitized and will decay over a period of time. Skyra solves this gap by presenting the Davos Collection – a range of modern faux wood coated tableware on Stainless Steel.

SKYRA BEAD ETCHED TRAY COLLECTION

Characterized by a beaded trim around the edge and laser etched engravings, the Bead Trays are the must-have elements for bar & service. The trays are flat, but with raised edges to stop things from sliding off them as well as providing a comfortable grip to handle with ease. The beautiful Bead collection is an elegant fit for any high-end event.

SKYRA GALLERY ETCHED TRAY COLLECTION

Characterized by their laser etched engravings and slotted rims, the Gallery Trays are the must-have elements for bar & service. The trays are flat, but with raised edges to stop things from sliding off them as well as providing a comfortable grip to handle with ease.

PRODUCT CARE: ELECTROPLATED PRODUCTS

Skyra Professional Tableware has a 57 year old heritage in Electroplating finishes. It continues to lead the industry by consistently upgrading and aligning with the latest technological advancements. Skyra products are guaranteed to have the absolute highest quality in Stainless Steel based electroplating finishes.

Electroplating is as delicate as it is beautiful and should be handled with great care. Below are a few tips on how to take care of your new products.

PRODUCT CARE INSTRUCTIONS

- 1. Hand-wash the product with warm water only, after every use.*
- 2. Ensure to completely dry the product with a soft cloth after each wash.*
- 3. Cover the product in polythene (saran) wrap or cotton and store in a cool dark place. Do so only after it is completely dried.*
- 4. When the product is displaying signs of tarnish, rub with a metal polish compound and soft cloth. Silvo and Brasso are two commonly available polishing compound brands.*
- 5. For maximum shine, Buff the products with a high speed polishing machine. Using a soft 'Airflow mop Flannel Wheel' and standard Red Bar and Green Bar buffing polish compound, apply light pressure in 'color motion'. A sample of an appropriate Buff wheel can be requested from Skyra for reference.*

'DO NOT' INSTRUCTIONS

- 1. Do not allow the electroplated surface to be in direct contact with foods (foods with ingredients) that are acidic in nature such as Vinegar and Lime. Stainless Steel food pans and liners are provided in each product to hold these types of fares.*
- 2. Do not use the product over Direct Heat/ Flame. In the case of Chafing Dishes, ensure that water is always filled in the Water Pan before placing the Chafing Fuel underneath it.*
- 3. Electroplated products are not developed for cooking. They should only be used for Front house serving.*
- 4. Do not scrub the Electroplated surface with an abrasive sponge.*
- 5. Do not use industrial detergent on the Electroplated surfaces or put into a dishwasher.*
- 6. Do not leave the product wet as permanent water marks may stain the surface.*
- 7. Do not use Cotton Wheels with grit specification to buff the electroplated surface. If in doubt, cross-check with your Skyra relationship manager.*

ELECTROPLATING OVERVIEW

Electroplating is an electro-chemical process through which a thin layer (up to 10 microns) of Gold, Silver, Copper, Brass, Nickel, Chrome and other metals are applied onto a Stainless Steel surface.

Most of these metals are known to react to moist air and oxidize over a period of time. The black film that is created on the topmost layer of the metal as a result of oxidization is known as 'Tarnishing', and is not a manufacturing defect. Tarnishing is a natural process that can be removed with the help of rubbing polish compounds, either manually or with a polishing machine.

Over a period of time, depending upon the level of usage and re-polishing, the layers of electroplating will consistently be grazed until the Stainless Steel base material is visible. At this stage, Skyra offers re-electroplating services to restore the finish to its original condition.

Please do not hesitate to contact your relationship manager for any further understanding or troubleshooting with your Skyra items. We hope you have a great product experience.
